Pension Fund Strategy

5 – 9 November 2012

Frankfurt - Germany

The JANERO Consultancy offers a broad range of training activities annually. These international seminars have attracted several participants from all over Europe, making JANERO one of Europe's inspiring African Diaspora training providers on Euro-Africa programmes.

Seminar Outline

Pension fund strategy and the different types of pension schemes are complex issues encompassing pension funding issues, asset/liability management and pension fund investment and portfolio optimization.

The aim of five-day comprehensive Seminar is to help participants understand the complex world of Pension Investment Strategy with specific reference to Asset / liability management tools.

The seminar will focus on:

- Understanding the global pensions crisis;
- The challenge to the cult of the equity;
- The role and purpose of pension funds;
- The different types of pension schemes;
- Dynamic approaches;
- Pension funding policies;
- Asset/liability management tools;
- Pension fund investment strategies;
- Measuring and modeling a pension liability;
- Impact of liabilities on investment strategy; and
- Benchmark timing and tactical asset allocation.
